

Model B46 Series

Introduction

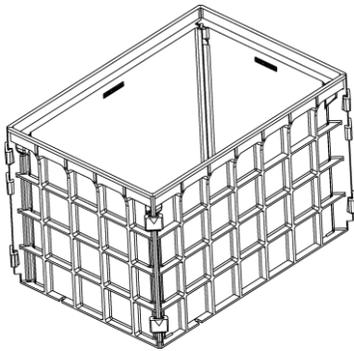

Burch handhole system is designed for underground distribution systems, especially for fiber optic and electrical industries. Manufactured with innovative composite material Burch handholes systems are an ideal solution of strong, light, flexible, time & cost saving comparing to concrete manholes.

Advantages

- Modular design with knock-down delivery and on-site set up
- Strong but light composite material construction
- Cost saving due to light weight, modular design
- Flexible to drill duct access; Duct entry provided
- Durability and resistance of entire construction up to SCTE-77 Tier22

Specifications

B46-6	Manhole	Cover
Load Bearing	SCTE-77 Tier22	SCTE-77 Tier22
Internal size	24x36 inch	26x39 inch
External size	26x39 inch	
Height	36 inch	1.5 inch
Weight	125 lbs	77 lbs
Fastening	FastClip	S.S Screw

Additional Chamber Height
